making it happen

this

- is written an educational sociologist
with extensive experience in making it
happen in the classroom
- involves understanding the role
of the individual in the classroom
and the changes that the social environment
brings about
- uses case examples to illustrate the
relationship between the social
environment and the individual
in the classroom
- includes a number of exercises to
help you understand the role
of the individual in the classroom
and the changes that the social
environment brings about
