UCL

Climate and environmental change, increasing development and urbanisation, and mounting exposure to natural hazards are imposing growing pressure on insurers and reinsurers to seek ways of limiting exposure, reducing vulnerability and building resilience. The PG Cert Natural Hazards for Insurers provides students with a better understanding of natural hazards and the means by which their impacts on the market may be mitigated or avoided.

This programme is accredited by the Chartered Insurance Institute (CII), the premier professional organisation for those working in the insurance and financial services sectors. Successful completion of the course qualifies the candidate for 60 non
